Uncertainty regarding the number of submarines participating in Sunday's raid has been largely dispelled. The commanders of the destroyers, some of whom observed the U boat's attacks in each instance, are understood to have reported they saw only one submarine. Statements by passengers and members of the crews of torpedoed vessels that two or three sub-marines were at work are held by Ad-miral Knight to be "honest mistakes."

SHADOW LAWN, LONG BRANCH. N. J., Oct. 10 .- President Wilson gave his entire attention to-day to considering facts collected by the Navy Department regarding German submarine attacks on merchantmen off the American coast. He had intended going to Brooklyn for the third baseball game of the World's Series, but changed his plans to devote himself to the foreign affairs of the Nation.

The President shut hienself in his study this morning and went carefully over all the evidence collected so far. While this evidence was not given out, there was every indication that the President had received no information necessitating drastic action by the American Government.
